The 2006-2007 Pesticide Applicator Certification Programs are designed for private and commercial applicators and registered technicians.

Each session will focus on a variety of topics eligible for recertification credits in various categories.

The core manual for Private and Commercial Applicators as well as all commercial category manuals are available at the Extension Office. We suggest you obtain the most current revisions. All applicators wishing to recertify by credits must earn the appropriate number of credits by December 31 the year of expiration.

Application for initial certification or recertification by examination should be made at the time of examination, by check or money order only to the State of Michigan. No cash will be accepted. The fee should not be mailed ahead of time. If your certification expires in 2006 and you did not receive a recertification packet this fall, phone your MDA regional office or the Lansing office. If you have received a packet and the number of credits which appear on the form do not agree with your records, mail in **your** attendance log or fill out the meeting attendance record form (the yellow page) and mail it with the application and your fee and the MDA will look for the discrepancy. If you don't know how many credits you have earned phone the Lansing office and they may be able to help you.
